Summary

Computer Science instructor candidate with a strong academic foundation (BSc in IT, **91.98% Distinction**) and practical industry experience building full-stack systems with **C++, Object-Oriented Programming, C, Java, java script, Python, Data Structures, Algorithms, Database Systems, Big Data, Artificial Intelligence, and Web Applications**. Capable of teaching core CS fundamentals and Web Application Development. Complemented by hands-on project experience software engineering for students.

Education

Information Technology Institute (ITI) – Ministry of Communications & IT

Professional Diploma – Web Development & BI Infused CRM

Tanta, Gharbia, Egypt

Oct 2025 – Present

Delta Technological University

BSc in IT – Software Development

Menoufia, Egypt

Sep 2021 – Jul 2025

- Graduated with **Distinction with Honors (91.98%)**.
- Developed “**Mahd**”, an E-Learning Platform, as graduation project (Grade: 98/100 – **Distinction**).
- Completed coursework in Data Structures, Algorithms, Database Systems, Big Data, Artificial Intelligence, and Web Applications.

Experience

Sky Software

Amman, Jordan (Remote)

Backend Developer Intern (.NET)

Dec 2024 – Apr 2025

- Developed RESTful APIs using C# and .NET Core to support scalable and secure web applications.
- Designed and optimized SQL Server schemas and queries, improving performance and reducing response time.
- Implemented JWT authentication and integrated backend services with Angular frontend for seamless user experience.

Projects

OpenFashion – Angular E-Commerce Platform

github.com/NourhanKhaled23/E-commrce

Angular 21, TypeScript, Bootstrap 5, JSON Server, Vercel

- Multi-role SPA (Admin, Seller, Customer, Guest) with route guards and role-based dashboards; deployed on Vercel.
- User-scoped cart with isolated localStorage keys per user ID and a promo-code discount engine against a mock REST API.

AI-Powered Personal Brand Content Curator

github.com/NourhanKhaled23

ASP.NET Core MVC (.NET 8), Node.js, Groq API (LLaMA 3), n8n, Docker

- Agentic pipeline: n8n fetches trending news, a Node.js microservice generates brand-aligned captions via LLaMA 3, and an ASP.NET Core MVC dashboard handles review and publishing.
- 4-endpoint REST API consumed by n8n automation nodes; full stack containerized with Docker Compose.

BugTrackr – Bug Tracking & Project Management

github.com/NourhanKhaled23/JOJO-BugTracker

Angular 21, TypeScript, Chart.js, Vercel

- SPA for tracking bugs and managing projects with Chart.js activity dashboards; deployed live at bugtrackr-omega.vercel.app.
- Browser-only localStorage backend with full CRUD on bugs, projects, and team members across role-based views.

AcademyHub – Educational Institution Management

github.com/NourhanKhaled23/AcademyHub

.NET 10, WinForms, EF Core 9, SQL Server

- Desktop app managing courses, students, and departments with LINQ projections and server-side aggregations for optimized DB performance.

ITI Reporting System – SSRS

github.com/NourhanKhaled23/Reports_ITI_ExamSystem

SQL Server Reporting Services (SSRS), HTML, Vercel

- SSRS solution delivering insights on student performance, exam structures, and org metrics for ITI's exam system; deployed on Vercel.

DEALPORT – Multi-Actor E-Commerce Marketplace github.com/NourhanKhaled23/DEALPORT-E-Commerce-Marketplace

HTML5, CSS3, JavaScript ES6+, Bootstrap 5

- Responsive marketplace frontend (Seller/Buyer) with vanilla JS and Bootstrap 5, featuring product listings, search, and cart.

Titanic Survival Prediction – Machine Learning

 github.com/NourhanKhaled23/Kaggle-Titanic_survive

Python, Pandas, Scikit-learn, Jupyter Notebook

- ML classification model with feature engineering and preprocessing pipelines predicting passenger survival on the Kaggle dataset.

Training

Telecom Egypt

Artificial Intelligence Training Program

Tanta, Gharbia, Egypt

Jul 2023 – Aug 2023

- Implemented machine learning algorithms and developed solutions for Kaggle-based challenges.

Languages

- Arabic (Native)
- English (Intermediate)

Technical Skills

- **Programming:** C++, Java, C#, Python, JavaScript, TypeScript, SQL
- **Frameworks:** .NET 10, ASP.NET MVC, ASP.NET Core Web API, Entity Framework Core, Angular 21
- **Backend:** RESTful API Design, JWT Authentication, Clean Architecture, Swagger (OpenAPI)
- **Frontend:** Angular, Blazor, HTML, CSS, Bootstrap 5
- **Database:** SQL Server, SSMS, EF Core Migrations, SSRS
- **AI & Automation:** GenAI APIs , n8n Workflow Automation
- **Deployment & Tools:** Vercel, Docker, Git, GitHub, VS Code, Visual Studio
- **Methodologies:** Agile / Scrum, Clean Architecture
